

Title: [Animals IF 2.323] (ISSN 2076-2615) Invitation to Contribute to Special Issue "Anaemia Associated Disorders in Sheep"

Dear Colleagues,

We are writing to you because we are editing a special issue of *Animals*, entitled "**Anaemia Associated Disorders in Sheep**". We feel that a contribution on the topic from you would be great to include. Hence, we are writing to inquire whether would you consider contributing a paper to this special issue. If you plan to submit a review article please provide us with a title and brief description at your earliest convenience, in order to avoid multiple reviews covering the same material.

The submission deadline is **30 April 2022**. You may send your manuscript now or up until the deadline. Submitted papers should not be under consideration for publication elsewhere. Their acceptance will be subject to our regular peer review processes. You can check suitability of your manuscript by sending me a title and abstract in advance.

Animals is fully open access. Open access (unlimited and free access by readers) increases publicity and promotes more frequent citations, as indicated by several studies. Open access is supported by the authors and their institutes. The Article Processing Charges (APC) for accepted papers are CHF **1800**. You may be entitled to a discount if you have previously received a discount code or if your institute is participating in the MDPI Institutional Open Access Program (IOAP), for more information see: <http://www.mdpi.com/about/ioap>

For information about the Special Issue, please click the link below:

https://www.mdpi.com/journal/animals/special_issues/Anaemia_Sheep

For information on manuscript preparation and related matters, please see the instructions for authors: <https://www.mdpi.com/journal/animals/instructions>

Would you let us know if you are interested? We would appreciate hearing from you in the next few weeks whether you would be willing to submit a contribution.

Please ask if you have any questions (Damon, a colleague who works for *Animals* is cc' d too "damon.qu@mdpi.com") or your ideas you would like to discuss.

With best wishes,

Dr. Aurora Ortín (aortin@unizar.es) and Dr. Delia Lacasta (dlacasta@unizar.es)
